European Electric Vehicle Catalog

Table of Contents

Introduction

Welcome to our electric vehicle product catalog. This catalog presents four innovative vehicles designed for performance, luxury, and practicality.

We present:

• **Porsche Taycan:** A high-performance electric sedan with advanced technology.

• **BMW i4:** A compact sedan that offers an excellent balance between performance and efficiency.

• **Audi e-tron:** A luxurious electric SUV with advanced features and generous seating capacity.

• **Volkswagen ID.4:** A versatile compact SUV that combines practicality and cutting-edge technology.

Explore these vehicles to find the perfect model for your electric mobility.

Porsche Taycan

The Porsche Taycan is a high-performance electric sedan known for its impressive range and cutting-edge technology. It accelerates from 0 to 100 km/h in just 2.8 seconds and reaches a top speed of 260 km/h. The vehicle offers a range of up to 514 kilometers on a single charge and features an advanced driver assistance system with functions such as automatic lane change and adaptive cruise control.

Inside, the Taycan impresses with a luxurious, minimalist cabin featuring multiple touchscreen displays and premium materials. Additionally, it is equipped with active safety features and has achieved high safety ratings in various crash tests.

BMW i4

The BMW i4 is a compact electric sedan that offers an excellent balance between performance, range, and efficiency. It is available in several variants, including eDrive40 and M50 models. The BMW i4 can accelerate from 0 to 100 km/h in just 3.9 seconds in the M50 variant.

It features a modern interior with the BMW Curved Display, which controls most functions. The vehicle includes advanced driver assistance systems and offers a range of up to 590 kilometers on a single charge, depending on the variant.

Audi e-tron

The Audi e-tron is a luxurious electric SUV known for its premium features and advanced technology. It offers a spacious interior with room for up to five passengers and state-of-the-art safety technology. The Audi e-tron has an impressive range of up to 441 kilometers and can accelerate from 0 to 100 km/h in just 4.5 seconds in its most powerful variant (e-tron S).

It includes a complete suite of driver assistance systems, virtual exterior mirrors (optional), a generous panoramic glass roof, and an advanced air suspension system for maximum comfort.

Volkswagen ID.4

The Volkswagen ID.4 is a compact electric SUV that offers a blend of performance, practicality, and advanced technology. It is available in various variants, including Pro and GTX models. The ID.4 offers a range of up to 520 kilometers and can accelerate from 0 to 100 km/h in 6.2 seconds in the GTX variant.

It features a spacious interior with flexible cargo volume, an optional panoramic glass roof, and the characteristic minimalist design of the ID. family. The intuitive infotainment system and comprehensive connectivity features round off the modern driving experience.
